## About the French Appart

The idea to host tourists from all over the world came into our minds in 2009. As great travelers ourselves we do appreciate full immersion when traveling abroad so it only came naturally for us to help and guide other travelers in our gorgeous city.

We are currently established in Montmartre, hotspot for tourism in Paris, we set for developing a network of condos to host travelers in an optimal, authentic but also innovative fashion. Step by step, year after year we began to realize how incredible an adventure it is.

Today, with more than sixty condos managed by us and a thousand guest hosted, we gained all the experience and skill to make your stay perfect all the way, or, manage your property (with all the expertise of seasonal rental in the case you own a property in Paris).
